## Education

- |                 |  |
|-----------------|--|
| Aug 2024 - 2028 | ■ Bachelor of Science in Computer Engineering<br>National University Clark, Mabalacat City |
| May 2024        | ■ Junior and Senior High School - STEM<br>Living Stone International School, Angeles City  |
| Jun 2017        | ■ Elementary School<br>Montessori School of St. Nicholas, Mabalacat City                   |

## Experience

- |                     |   |
|---------------------|---|
| Jan 2024 - Feb 2024 | ■ Student Internship   Multimedia and Film Arts<br>Red7 TV, Angeles City <ul style="list-style-type: none"><li>Completed an 80-hour internship focused on multimedia and film arts, acquiring extensive hands-on experience in the industry.</li><li>Achieved a perfect score of 72/72 on the student appraisal form, highlighting competence in multimedia and film arts, exceptional work ethics, and a strong aptitude for the field. This allowed me to apply my skills in a professional setting and learn about the intricacies of film production.</li><li>Utilized and learned professional equipment to leverage skills and experience. Introduced to main equipment: cameras, gimbals, tripods. Calibrated gimbals and practiced filming in different locations such as The Cube and Gustav.</li></ul>  |
| Sep 2022 - Nov 2022 | ■ Audio Visual Presentation Commission<br>Holy Angel University, Angeles City <ul style="list-style-type: none"><li>Commissioned to produce a 3D Animated Audio Visual Presentation (AVP) during Holy Angel University's Foundation Week.</li><li>Used Blender and Adobe Premiere to create a 3-minute video presentation, utilizing over 100 hours of combined software usage for editing and rendering.</li><li>Collaborated with a team of only two members with both of us being the scriptwriters, storyboarder, sound designers, etc. to ensure a cohesive final product. Produced the AVP in 1080p resolution, with a total file size of 2GB, ensuring high visual and audio quality.</li><li>Effectively managed to stay within a limited budget for software licenses by using a personal Adobe Premiere license and leveraging Blender's free access, along with copyright-free audio and background music.</li><li>Completed 2 major revisions based on feedback from university stakeholders, enhancing the final product's effectiveness. Focused on character design, 3D modeling, and animation.</li></ul> |
